The mission of SECB is...

- \*To determine the level of unique and additional education, examination, and experience necessary to perform the science and art of Structural Engineering.
- \*To provide a common national process for structural engineers to become certified.
- \*To provide the public and stakeholders with an identification instrument that distinguishes an engineer with those unique and additional qualities necessary to perform structural engineering.

## SE II Exam Information for October 24, 2008 test

**Please visit [www.els-examreg.org](http://www.els-examreg.org) for exam details.**

Now that the SECB Grandfathering Process has been eliminated all structural engineers wishing to acquire the SECB designation must first pass the SE II Exam.

While there is a nationwide exam date some states do not share a registration deadline. Please contact the state you are licensed in to receive exact approval process information and exam details.
